Interesting About Humans

Č A A Č Č A

OŠ Đura Jakšić, Vojvodina, Serbia

February 1 2018–February 1 2019

*Interesting Things about Humans* is a yearlong installation of works by Adriana Ramić at Osnovna Škola Đura Jakšić in Serbia. The texts in this installation, presented as a sequence of polyvalent flashcards, emerge from interpretations of photos taken at the school 2 years prior, using BUBAMARA-OCR: an image recognition program written by the artist for interpreting images as texts, where ladybugs function as alphabetic intermediaries.

With thanks to Đorđe and Snežana Vlasavljević for their generosity in the introduction to the school. Installation photographed by Relja Ivanić.

BUBAMARA-OCR can be downloaded at <http://left.gallery/bubamara-ocr>.
